Biweekly Report — Website & Digital Content

October 5 – October 17, 2026

Period	Oct 5 – Oct 17, 2026 (2 weeks)
Scope	Website updates & maintenance (brand promotion) + digital content creation (lead generation)
Source	Official Website & Digital Content Tracker + internal build log
Previous report	Monthly Report (August 5 – September 5, 2026)

First fortnight under the new tracker. **Website is on track** — 6 of 7 logged updates shipped (careers single-click apply, referral feature, circular logo, two SEO clean-ups); only Razorpay is open. **Digital content is ramping up** — of 8 items logged, 1 published, 2 ready, 4 in design or awaiting approval, 1 cancelled. Next fortnight's two gaps: **nothing published since the first post**, and **no product has a finished catalogue, brochure or video**; the audio/visual track has not started.

AT A GLANCE

Area	Logged	Done	In Progress / Needs Attention
Website updates	7	6 completed	1 in progress (Razorpay)
Digital content	8	1 posted · 2 ready	4 pending approval / in design · 1 cancelled
Catalogues · brochures · videos	6 products	0 ready	all 6 pending
Weekly content target	1 week tracked	0 met	1 missed (1 of 2 creatives); audio/visual 0 of 1
Leads from content	1 post published	0 leads	attribution not set up

1. WEBSITE UPDATES (7 LOGGED)

ID	Category	Work	Priority	Status	Published	Days
WEB-001	Product / Service	Gate Pass module (HRMS)	High	Completed	Oct 7	2
WEB-002	Website section	Razorpay API integration	High	In Progress	—	—
WEB-003	Career	Single-click form submit	Low	Completed	Oct 6	1
WEB-004	Website section	Logo changed to circular shape	Low	Completed	Oct 6	—
WEB-005	Website section	SEO — remove old-site pages from index	Medium	Completed	Oct 16	1
WEB-006	Website section	SEO — keyword-targeted blog articles	Low	Completed	Oct 16	1
WEB-007	Career	Referral feature (users invite others)	Low	Completed	Oct 17	0

2. DIGITAL CONTENT (8 ITEMS LOGGED)

ID	Type	Title	Platform	Status
DC-001	Creative	Work from anywhere with Tally on Cloud	Instagram	Posted (Oct 6)
DC-002	Creative	TallyPrime 7.2 new features	Instagram	Pending approval
DC-003	Brand promotion	Company card design structure	Other	Cancelled
DC-004	Brand promotion	Letterhead draft	Other	In design (awaiting template)
DC-005	Brand promotion	Card design — back side	Other	Ready
DC-006	Social post	Tally on Mobile app	Instagram	Pending approval
DC-007	Catalogue / brochure	CFA module brochure	Website	Ready
DC-008	Catalogue / brochure	Document Management System brochure	WhatsApp	In design

3. READINESS & WEEKLY TARGET

Product / Service	Catalogue	Brochure	Video
Tally Customized Product	—	—	—
Tally Cloud	—	—	—
HRMS	—	—	—
Mobile App	—	—	—
Tally Updates / Releases	—	—	—
Other Services	—	—	—

Week	Creatives done / target	Audio-visual done / target	Result
Oct 5 – 11	1 / 2	0 / 1	Missed
Oct 12 – 18	in progress	in progress	Pending

CHALLENGES FACED

#	Challenge	Impact
1	Content target missed (1 creative vs 2 + 1 audio/visual); audio/visual track not started	Publishing cadence behind plan
2	Approval bottleneck — 2 finished assets (TallyPrime 7.2 flyer, Tally on Mobile post) pending approval	Ready content cannot go live
3	Brand collateral in rework (card / letterhead)	Design time spent with no published output
4	Razorpay integration blocked on the gateway's API / 2FA enablement	Website feature delayed
5	Zero shareable collateral — no catalogue / brochure / video for any of 6 products	Sales has nothing new for WhatsApp / print

#	Challenge	Impact
6	No lead attribution; dashboard counts do not reconcile with the sheet (see Tracker Data Quality)	Content ROI unmeasurable; tracker needs a fix

TRACKER DATA QUALITY — MISSING ROWS

Simple: The dashboard does not match the sheet — it shows 7 digital items but 8 rows are logged, and 'Ready' is one too high. The two leftover sample rows (WEB-001, DC-001) are still being counted. Fix the sheet before the next report so the numbers can be trusted.

Detailed:

#	What the dashboard shows	What the sheet actually has	Fix
1	Digital total = 7	8 rows logged (DC-001 to DC-008)	The Total formula counts only non-Cancelled rows, so DC-003 (Cancelled) is silently dropped — label the column 'Active' or count every row.
2	Digital 'Ready' = 3	2 rows (DC-005, DC-007)	The 'Creative' row has a hard-typed 1 instead of the Ready formula every other row uses — replace it.
3	Digital 'In Progress / Planned' = 3	4 rows (DC-002, DC-004, DC-006, DC-008)	Same row — set it to =Total - Posted - Ready (the formula the other rows use).
4	Sample rows counted in the totals	WEB-001 and DC-001 are marked 'Example row'	Delete both sample rows, then recalculate the sheet.

HOW WE CAN IMPROVE — MAKING INFORMATION CLEAR & VALUABLE TO CUSTOMERS

#	What we will do	Benefit to the customer
1	Answer four questions on every product / post: What is it? Who is it for? What problem does it solve? What do I gain?	Customer instantly understands the offering
2	Sell the benefit, not the jargon — plain results instead of 'TDL / AES-256 / multi-threaded'	Customer sees the value, not technical terms
3	One short video or GIF (30–60s) per product	A feature becomes obvious in seconds
4	One shareable one-pager per product (finish the catalogue / brochure for all 6)	Sales can answer instantly on WhatsApp
5	Real customer stories + FAQs in the customer's own words	Trust and clarity from real proof
6	One clear call-to-action with a UTM-tagged link on every post	Customer knows the next step; leads become traceable

NEXT STEPS

Priority	Item
High	Clear the two pending approvals (DC-002, DC-006), publish, and start the audio/visual track
High	Unblock Razorpay (WEB-002) — follow up on API / 2FA enablement
High	Finish and publish one catalogue / brochure per product; start the video library
Medium	Add UTM-tagged links + a lead-source field so content ROI is measurable
Medium	Fix the tracker dashboard (missing rows) so its totals match the item rows

Prepared from Website_and_Digital_Content_Tracker.xlsx (last updated Oct 16, 2026) + the internal build log.
